Profile

Software Engineering student interested in applying digital solutions, data analysis, and data science to real-world challenges. Skilled in troubleshooting and communication, with a focus on improving efficiency and optimizing workflows.

Work Experience

IT & Automation Intern
Aug - Sep 2025

Kurdistan Foundation

- Designed and created an automation system for job postings across platforms (LinkedIn & Telegram), streamlining workflows and reducing manual workload.
- Developed a meeting room booking system and deployed it for daily office use, eliminating paper-based processes and improving scheduling efficiency.
- Conducted bug testing and requirement gathering for entity websites, documenting issues and collaborating with developers for fixes.
- Provided IT support during organizational events, clearly communicating solutions to both technical and non-technical staff to ensure smooth operations under live conditions.

Library Management System Intern Tester
May - Jun 2025

University of Kurdistan Hewlêr (UKH)

- Part of the official testing team of UKH's newly implemented library system that was developed by World Share Management (WSM).
- Identified and documented critical user experience bugs and system issues, contributing to faster iteration cycles and improved usability.
- Collaborated with system developers and librarians to align technical solutions with academic user needs.

Data Science and Analysis Intern   Feb - Mar 2025
UKH Artificial Intelligence and Innovation Center - AIIC

- Cleaned, organized, and formatted raw data to make it usable for analysis and reporting.
- Analyzed structured datasets to uncover trends, patterns, and potential areas of improvement.
- Applied practical data skills to tasks, improving both technical ability and problem-solving under guidance.
- Developed strong communication and problem-solving skills by collaborating with engineers and team members.

Incubator Program Participant   Aug - Dec 2025
FiveOneLabs - Orange Corners Erbil

- Led the development of Daroon, a mental health app designed for regional users.
- Conducted market research, built early prototypes, and pitched to investors during the incubator.
- Strengthened skills in business development, tech strategy, and user-focused design.
- Collaborated with a cross-functional team to align technical features with market needs.

Co-Founder   Feb - Dec 2025
WAVE Marketing Agency

- Co-founded a marketing agency, managing all aspects of client acquisition and digital strategy.
- Designed and executed targeted campaigns, tracked performance metrics, and led client relations.
- Oversaw branding, content planning, and engagement strategy across multiple platforms.

Education

University of Kurdistan Hewlêr (UKH)   Oct 2022 - Jun 2025
BSc. Software Engineering

Languages

Kurdish - Native
English - Fluent
Arabic - Beginner

Skills

Programming	Adaptability
Data analysis and visualization	Problem-solving
Machine learning & AI	Communication
IT & Networking	Attention to detail
Research	Analytical mindset
Automation	Forward thinking
Microsoft Office	Teamwork

Certificates

- Complete A.I. & Machine Learning, Data Science Bootcamp at Zero to Mastery (ZTM). (April 2025)
- Volunteer of the Year Award at UKH. (2023 - 2024)
- Intro to Data, Re:Coded. (June 2023)
