Profile

Software Engineering student at UKH with hands-on experience across data science, automation, and venture building. Driven by a goal to bridge the gap between technical systems and business impact, whether that means building tools, analyzing markets, or launching products from zero.

Work Experience

EverCrest Partners

Nov 2025 - Present

Analyst

- Focused on organizational restructuring and led the full lifecycle of requirements gathering and implementation for internal systems to optimize operational frameworks.
- Conducted comprehensive market analysis to identify trends and opportunities, directly supporting high-level strategic planning.
- Prepared and presented data-driven findings to senior stakeholders and investors, translating complex analysis into clear narratives that supported confident decision-making.

Artisan Perfumes

Nov 2025 - Present

Co-Founder

- Co-founded a luxury perfume company, overseeing both the technical infrastructure (e-commerce systems, inventory management, and digital operations) and the financial side of the business including budgeting, cost modeling, and P&L tracking.
- Designed and implemented the end-to-end digital stack supporting product listings, order flows, and customer data management.
- Drove early-stage business strategy including pricing, supplier negotiations, and go-to-market planning to establish the brand's commercial foundation.

Kurdistan Foundation
IT & Automation Intern

Aug - Sep 2025

- Designed and created an automation system for job postings across platforms (LinkedIn & Telegram), streamlining workflows and reducing manual workload.
- Developed a meeting room booking system and deployed it for daily office use, eliminating paper-based processes and improving scheduling efficiency.
- Conducted bug testing and requirement gathering for entity websites, documenting issues and collaborating with developers for fixes.
- Provided IT support during organizational events, clearly communicating solutions to both technical and non-technical staff to ensure smooth operations under live conditions.

UKH Artificial Intelligence and Innovation Center - AIIC
Data Science & Analysis Intern

Feb - Mar 2025

- Cleaned, organized, and formatted raw data to make it usable for analysis and reporting.
- Analyzed structured datasets to uncover trends, patterns, and potential areas of improvement.
- Applied practical data skills to tasks, improving both technical ability and problem-solving under guidance.
- Developed strong communication and problem-solving skills by collaborating with engineers and team members.

FiveOneLabs - Orange Corners Erbil
Entrepreneurship Program Participant

Aug - Dec 2024

- Led the development of Daroon, a mental health app designed for regional users.
- Conducted market research, built early prototypes, and pitched to investors during the incubator.
- Strengthened skills in business development, tech strategy, and user-focused design.
- Collaborated with a cross-functional team to align technical features with market needs.

Wave Marketing Agency
Co-Founder

Feb - Dec 2024

- Co-founded a marketing agency, managing all aspects of client acquisition and digital strategy.
- Designed and executed targeted campaigns, tracked performance metrics, and led client relations.
- Oversaw branding, content planning, and engagement strategy across multiple platforms.

Education

University of Kurdistan Hewlêr (UKH)
BSc. Software Engineering

Oct 2022 - Jun 2026

Languages

Kurdish - Native
English – Fluent
Arabic – Intermediate

Skills

Programming	Adaptability
Data analysis and visualization	Problem-solving
Machine learning & AI	Communication
IT & Networking	Attention to detail
Research	Analytical mindset
Automation	Forward thinking
Financial Modelling	Teamwork

Certificates

- Complete A.I. & Machine Learning, Data Science Bootcamp at Zero to Mastery (ZTM). (April 2025)
- Volunteer of the Year Award at UKH. (2023 - 2024)
- Intro to Data, Re:Coded. (June 2023)
